

## Aspire, the spinal injury charity, launch employee benefits with Fair Care

### Detail

Aspire, the charity that supports people with spinal injury, is the latest to introduce voluntary & flexible benefits to their employees using Fair Care's Benefit Select, the innovative online benefits portal.

As with all charities, expenditure needs to be kept to a minimum but the need to provide employees with quality benefits is also of paramount importance - Benefit Select has bridged that gap.

Making benefits such as Childcare Vouchers, Cycle to Work and Shopping Discounts available to their employees, Aspire hope that their employees will feel rewarded for the fantastic work that they do.

*"Tasha Webster, Aspire's Director of Operations says 'at Aspire we were looking for a professional way to make employees more aware of the benefits available to them. The Benefit Select site does that and more, I have already had lots of positive feedback from staff about the bespoke 'Aspire Additions' site."*

Fair Care, one of the UK's leading employee benefits providers produced the bespoke, fully branded portal for Aspire, introducing benefits such as Childcare Vouchers, the Cycle to Work scheme and Shopping Discount Scheme as well as housing a number of Aspire's existing benefits.
